- Trade Show Marketing Library → Over 85 Articles on Trade Show Marketing
- Video Gallery → Watch and Learn. Almost No Reading Required.

### Benefits:

Now more than ever, there's no excuse not to be an informed trade show marketer. The challenge... filtering the good from the bad and the real from the self-serving.

Over the years, Classic Exhibits has created an array of professional online resources. **Trade Show Tips** is a library of 85+ articles such as "10 Tips for the Trade Show Newbie" and "How to Cut Trade Show Costs - Part 1, 2, and 3."

The four **Graphic Inspiration Galleries** explain the nuances of 3D graphic design using real world examples. The **Drayage Calculator** is a simple estimating tool and a practical way to minimize material handling surprises. Then there's **Past Five Days** a popular, searchable photo library of 6000 displays showing display kits, custom designs, and rentals - all real projects, all available on Classic's website or in **Exhibit Design Search**.
