One-Step Modular System

Summer Sales Tips (3 of 10)

Bonus
Audio Tip

Features:

- No Tools. No Loose Parts. → Perfect for All North American Shows
- Doubled-sided Modular Panels → SEG or Direct Print Graphics | One or Two Sides
- Multi-Purpose 90° Corner → One Corner = 90°, 180°, 270°, or 360°
- 180° Hinge Connector → Adjustable or Fixed Angle Corner
- MODUL Extrusion Grooves → Seamless Integration w/ MODUL Accessories
- Smart Wire Management → (4) Wire Management Holes Per Frame
- No Welded Corners → Welded Panels? That's Just Dumb!
- Flat and Curved Frames → Get What You Need. Not Just What's Available.
- Panel Plunger | Spring Connector → It's Not Magic. But It's Pretty Darn Close.
- Notched SEG Corners → Seamless SEG. No Clipping. No Mistakes.

Benefits:

The Gravitee One-Step™ Modular Wall System was designed for North American trade shows and events. The modular panels **assemble without tools or loose parts, reducing onsite labor by 40% or more.** Graphics attached effortlessly on the **doubled-sided extrusion frames**, and the corners are notched for seamless silicone edge graphics.

Choose from flat or curved panels in sizes ranging from 95" to 15" H and up to 46" W. **Corners have never been easier. Two choices: the Multi-Purpose 90° for an SEG, Radius, or Hard 90, or the versatile Hinge Connector** which adjusts to any angle in seconds. Panels stack in custom fabric-lined jugged crates reducing material handling — one more reason to choose the Gravitee One-Step System for your next exhibit.
