- Kit or Custom. Your Choice.
- The Industry's BEST Packaging!
- One Less Thing to Worry About

Walk any industry trade show. What do you see? Some cheap 10 ft. displays. Some amazing \$350,000 islands. But mostly mid-market corporate exhibits, ranging from \$10K to \$200K. Those are the heart and soul of professional trade shows at any convention center in North America.

At Classic Exhibits, we are proud to be a mid-market designer and builder of exhibits. Our Visionary Designs line consists of **cutting edge of modular designs with features easily customizable to any exhibit marketing goal. Many re-configurable from a 10 x 20 to a 10 x 10, or from a 20 ft. inline to an island.**

Every exhibitor wants (and deserves) a **personalized, distinctive design**. With Visionary Designs, every exhibit can be remarkable and unforgettable simply by working with our Creative Design Team. **Curves or angles, monitor stands or lightboxes, charging stations or conference rooms** are all available.

With Visionary Designs Hybrid Exhibits, you're in charge because every display is **"Designed Just for You!"**

Rental Designs Too!
